10. Visual Representation of Multiple Access Techniques

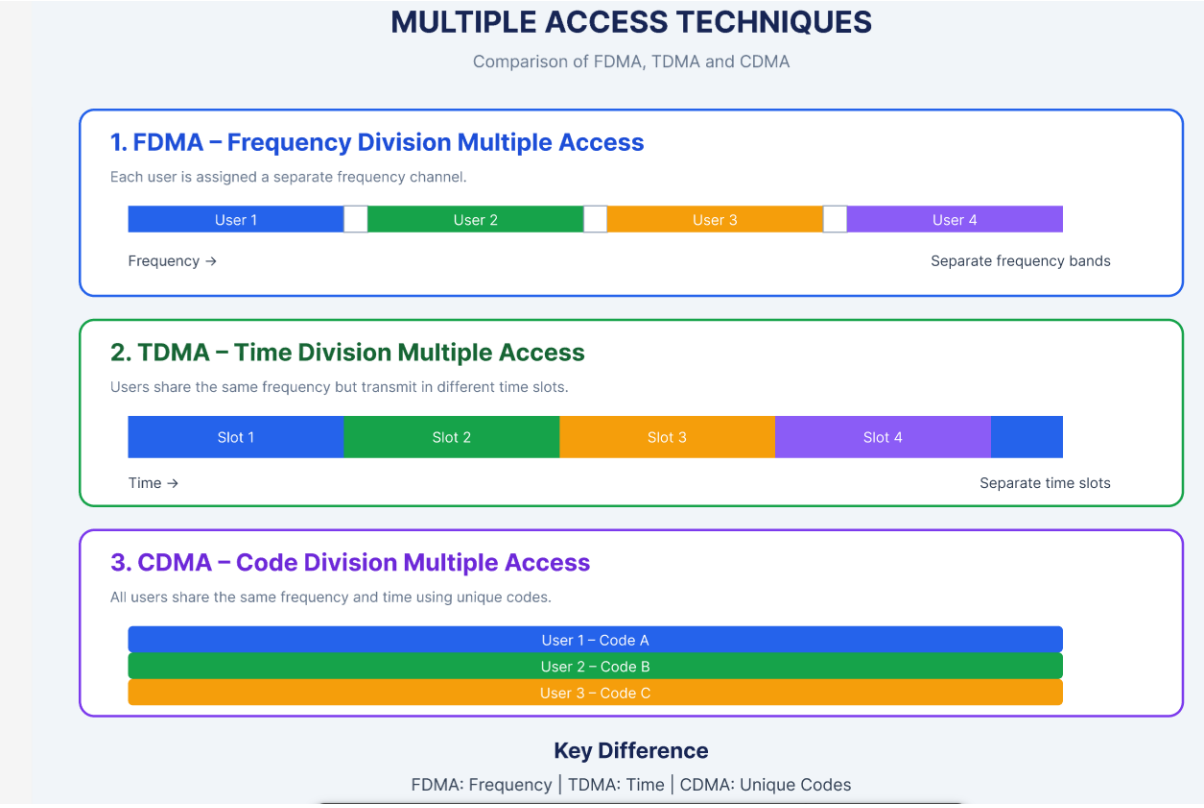

Aim: To create a visual representation in Figma showcasing the differences between various multiple access techniques.

Procedure:

1. Open Figma and create a new design file.
2. Select a suitable frame for the comparison diagram.
3. Add the title Multiple Access Techniques.
4. Create separate sections for FDMA, TDMA and CDMA.
5. Represent FDMA using different frequency bands.
6. Represent TDMA using different time slots.
7. Represent CDMA using different codes for users.
8. Use colours, labels and diagrams to show the differences.
9. Arrange the sections neatly and preview the final design.

Output:

Result:
A visual comparison of FDMA, TDMA and CDMA multiple access techniques was successfully created using Figma.
