3. Flowchart of Network Switching Subsystem (NSS)

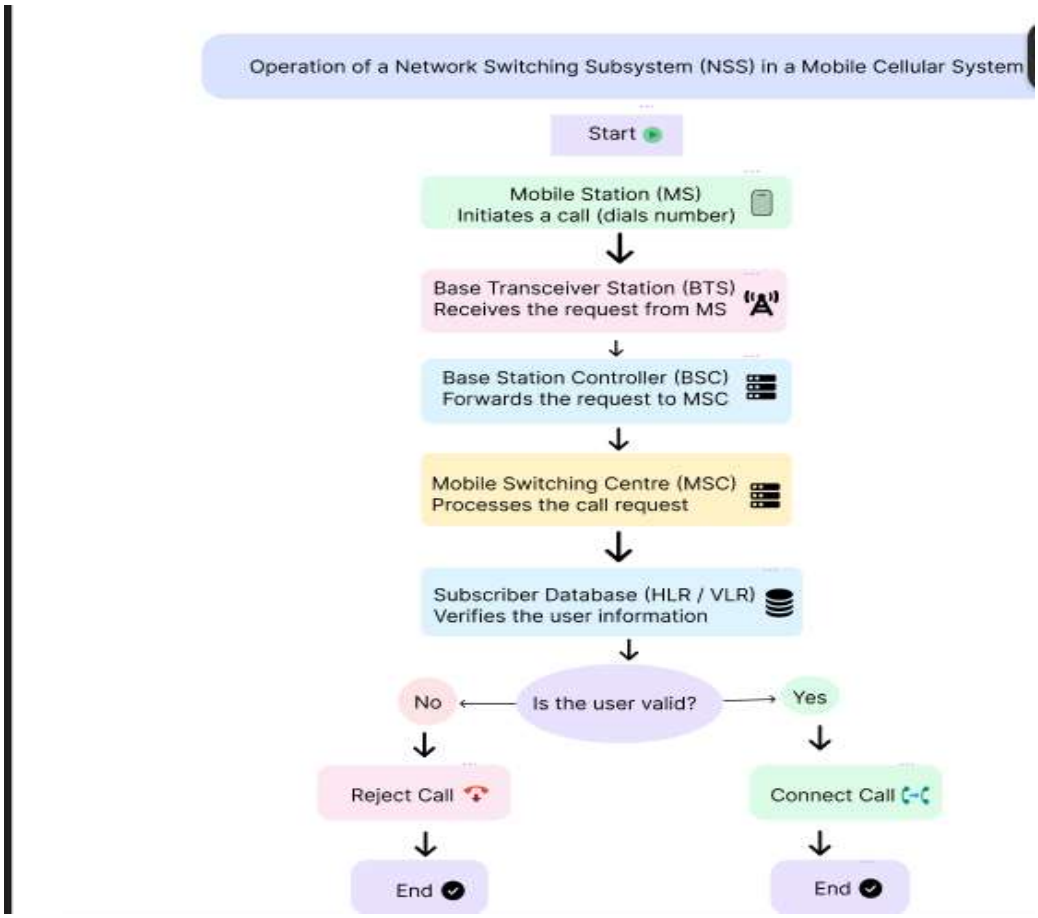

Aim:
To develop a flowchart in Figma depicting the operation of a Network Switching Subsystem in a mobile cellular system.

Procedure:

1. Open Figma and create a new design file.
2. Select a suitable frame for the flowchart.
3. Add a start symbol to represent the beginning.
4. Add a step for receiving a call request from the mobile station.
5. Add a step for user authentication.
6. Add a decision symbol to check whether the user is valid.
7. Add steps for call routing and connection establishment.
8. Connect all steps using arrows and add an end symbol.
9. Arrange the flowchart neatly and preview the design.

Output:

Result:
A flowchart representing the operation of the Network Switching Subsystem was successfully created in Figma.
