13. Design an Infographic in Figma Comparing Mobile Communication and Mobile Computing

Aim: To design an informative infographic using Figma that compares mobile communication and mobile computing based on their features, functions, technologies, and applications.

Procedure:

1. Open Figma and create a new design file.
2. Select a suitable frame size for designing the infographic.
3. Divide the frame into two sections titled Mobile Communication and Mobile Computing.
4. Add a suitable heading and brief introduction explaining both concepts.
5. In the mobile communication section, include features such as voice calls, SMS, wireless connectivity, and data transmission.
6. In the mobile computing section, include features such as mobile applications, data processing, portability, and cloud services.
7. Add relevant icons and illustrations representing smartphones, networks, applications, and cloud computing.
8. Use colors, shapes, and comparison points to highlight the similarities and differences between the two concepts.
9. Arrange the content properly, review the infographic, and export the final design.
