1. Interactive Diagram of a Basic Cellular System

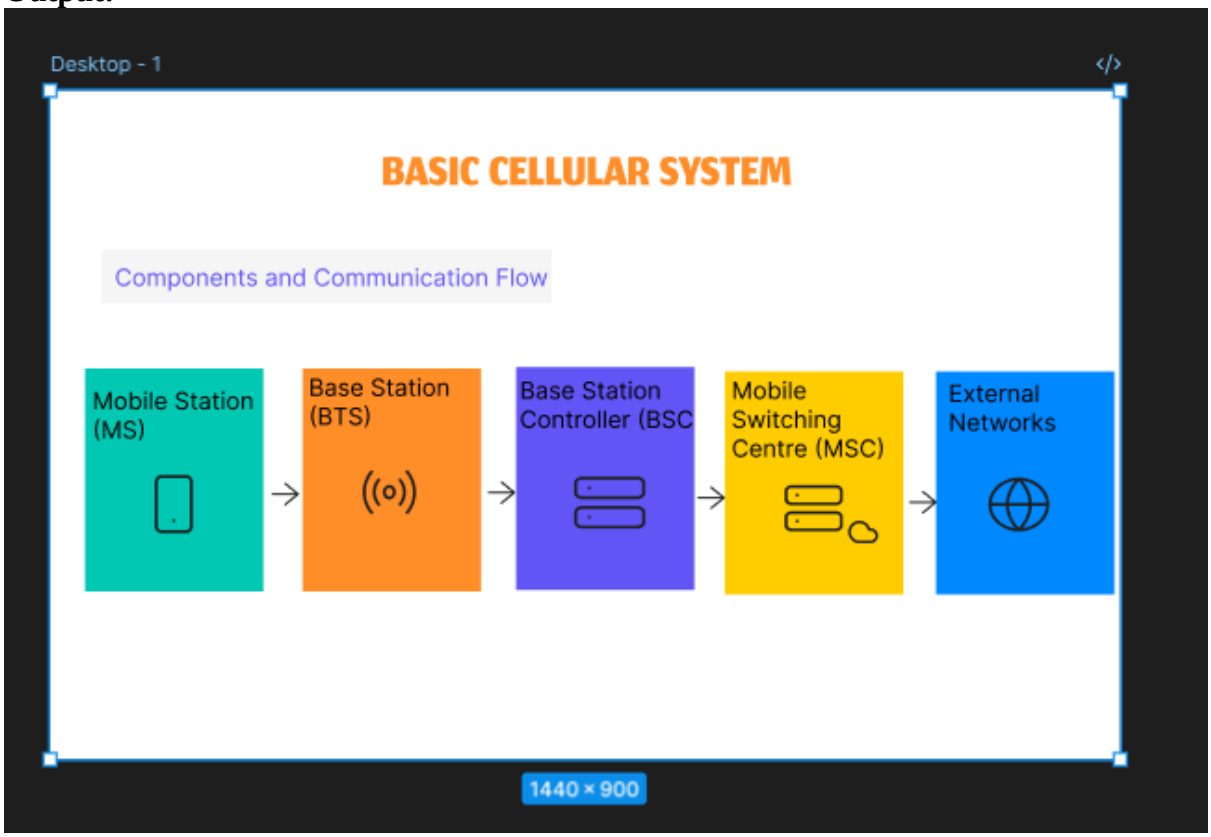

Aim:
To create an interactive diagram in Figma illustrating the components of a basic cellular communication system.

Procedure:

1. Open Figma and create a new design file.
2. Select a suitable frame size.
3. Add a mobile station (MS) using shapes and icons.
4. Create a Base Transceiver Station (BTS).
5. Add the Base Station Controller (BSC).
6. Add the Mobile Switching Centre (MSC).
7. Connect all components using arrows to show communication flow.
8. Add labels and descriptions for each component.
9. Use prototype connections to make the diagram interactive.

Output:

Result:
An interactive diagram of a basic cellular system was successfully created using Figma.
